

Year 1 Weekly update: 30th April 2018

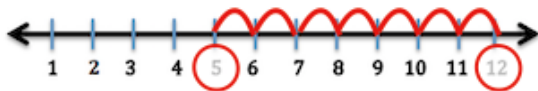

Messages:

On Thursday 3rd May, local elections will be taking place across London. Duncombe will be used as a polling station so there will be no school that day.

On Friday 11th May, Year 1 will have a class assembly about Buddhism. We would love to see you there.

Maths:

This week, the children will be learning to add and subtract numbers. They will use number lines and mental methods to find the answer to different question and word problems.

$$5 + 7 = 12$$

English:

The children will focus on inference and deduction questions in English this week. They will learn to use different strategies to help them find an answer in a text. Later in the week, they will practise regular and irregular past tense verbs.

Topic and science:

In topic, we will learn about sea habitats by comparing hot and cold places. They will use an atlas to find the locations of different seas.

In science, we will learn about weather and climates around the world.
