

Messages:

We enjoyed a fantastic week at Cardfields last week.

Those that stayed in school focused on revision and writing our own creative stories.

This Friday, 18th April, is our Music assembly. It will start at 2:30 in the top hall. Please come along and watch our performance.

Maths:

In maths, we are continuing to learn about fractions. We will look at equivalent fractions, how to order fractions and adding and subtracting fractions.

English:

We are looking at the Roald Dahl book Fantastic Mr Fox. Using the text as inspiration, we will start to plan and write a diary entry from the perspective of Mr Fox.

Science:

In science, we will continue to learn about light and looking at how it travels. We will be exploring shadows, how they are formed and what changes their size and shape.

Topic:

We are continuing our topic on community and looking at our local environment. This week we will be learning about co-ordinates and how they are used to map read.

Homework:

Please select a task from the project homework. Please also practise spelling. Perfect paragraphs have been removed but children will be asked to use the spelling words in a sentence.

The maths homework is now on Mathletics – please complete three activities. For extra challenge, try some Problem Solving as well. If your child needs access to a computer, they can come to one of the Mathletics sessions we offer in school on a Friday lunchtime.

We have given everyone an Accelerated Reader band – you can go to the library every day after school and find new and exciting books at your child's reading level.
