

Dear Parents, Carers and Children

Identity Treasure Box Project

We would like to set the children a summer project, which will be celebrated in the Autumn Term.

The project is to create an Identity Treasure Box, which would contain photos and items of significance to your family. The boxes will then be part of a celebration afternoon where the children will be given the opportunity to explain the special items within the boxes to a wider audience including parents and carers. Children from Year 1 to Year 6 will also be doing a piece of writing about the treasure in their box to explain why it is important to them.

What are identity boxes?

Identity boxes are boxes that contain items that represent who we are.

The types of objects that you may want to include are:

- Family celebration photos
- A favourite toy from when you were really little
- Souvenirs from trips or holidays
- Anything of significance to you and your family
- A baby photo

Please help to decorate the Identity Boxes to make them as special as possible.

To ensure that we can fit all the boxes on our display, please use a box that is no bigger than this piece of paper. A small shoebox would be ideal.

We look forward to learning all about our families through this project.
