

Reading:

It has been so lovely to see the children progress in their reading this term. Please make sure you read with your child every night. You can sign their reading diary, or the child can sign it themselves. Reading books are changed when your child's books are in their bag and once they have read with an adult at school.

Homework:

Homework will be sent home on Fridays and must be returned by Thursday.

Messages:

We had the best time at the zoo last week! The children loved to see all the animals and learn all about their different habitats and appearances.

Maths:

This week in maths we will be looking at fractions.
Can your child try making fractions of shapes using objects around the house?

Phonics / Spellings:

Please support your child at home with their homework, which should be at their level, and spellings.

English:

This week we will be editing our writing from the previous week. We were looking at the story, Sulwe. All the children loved learning about the book and I'm sure they would love to talk about the book at home.

Science: In science this term, we will be looking at Plants and their life cycle. Children will be observing a seed and hopefully planting one themselves this week!
