

## Year 4 Weekly update: Monday 9th October 2020

### Messages:

**The children made an amazing start to the half term. We are very proud of them!**

PE is on Monday and Thursday.

Children need to wear their Duncombe PE kit to school on these days.

Homework is given out on Friday.

Children return it on the following Thursday.

Please can children use Doodle Maths as much as they can!

With kind regards,  
Year 4 team

### Maths:

This week, children will explore multiplying and dividing. Children will explore the relationship between multiplying by 10 and 100 and will begin to look at sharing between equal groups.

### English:

Children will look at an African story called 'The Two Brothers'. They will explore the morals and teachings of the story. This week, children will begin to draft their own version of the tale. We can't wait to see what they will produce!

### Topic and Science

Topic: children will look at the Kingdom of Benin. They will have a look at artefacts and draw conclusions about what it was like to live there.

Science: children will be introduced to an investigation that involves melting chocolate. Their investigation question is 'Do different types of chocolate melt at different points?'

### Reading:

Thank you for reading with your child and signing their reading diary.

Children will continue to bring their diary and reading book home with them every day, and then bring them back to school the next day.

Reading diaries will continue to be checked every morning.

Thank you for your continued support.
