

Year 4 Weekly update: Monday 14th December

Messages:

PE is on Monday and Thursday.

Children need to wear their Duncombe PE kit to school on these days.

Homework is given out on Friday.

Children return it on the following Thursday.

It is the last week of term! The children have been working so hard. Considering they have been in education through a pandemic, they really have beaten all odds! Thank you for all of the help and support you have given your children. We hope you have a well-earned break and look forward to Spring term!

With kind regards,
Year 4 team

Maths:

The children will complete a week on Measurement and Length. They will explore measuring different shapes in cm and m and converting between km and m. Towards the end of the week, children will also begin measuring the perimeter of rectilinear shapes.

English:

Children will look at a variety of poetry focussed around light. They have discussed some beautiful ideas around the subject and will put their ideas down in the form of a poem. We are looking forward to reading their finished products!

Topic and Science

Topic: Last week, children reflected on their topic learning and did some Christmas crafts. This week, children will learn some more about the Kingdom of Benin. Children will also enjoy a range of activities celebrating the lead up to Christmas!

Science: Children will continue exploring Scientist Jabir Ibn Hayyan – celebrating diversity in Science.

Reading:

Thank you for reading with your child and signing their reading diary.

Children will continue to bring their diary and reading book home with them every day, and then bring them back to school the next day.

Reading diaries will continue to be checked every morning.

Thank you for your continued support.
